## 4 Simple Steps to **Recycle Right**® at Home

Recycling at home is one of the best ways to help reduce waste and create a sustainable tomorrow. Follow these five easy steps to Recycle Right® at home.

### Choose Your Recycling Spot

Pick a location and place a container where recyclables naturally pile up—like the kitchen, pantry, or home office.

**Recommendation:** Set up multiple recycling bins around your home to catch clean and dry bottles, cans, plastic tubs, plastic and paper to-go cups, paper and flattened cardboard right where they're used.

### Label Your Container

Download a clear, easy-to-read label that shows exactly what belongs inside your container. Scan or head to [wm.com/recycleright](http://wm.com/recycleright) to download your label in English or Spanish.

**Recommendation:** Stick the label on or above your container.

### Recycle Right

Recycle clean and dry bottles, cans, plastic tubs, plastic and paper to-go cups, paper and flattened cardboard.

**Recommendation:** Never bag your items. And keep food, liquid and plastic bags out of your container. Set aside a dedicated spot for large, flattened cardboard boxes so they're ready to go when you take out the rest of your recycling.

### Build Your Recycling Routine

Create a simple routine—like emptying smaller bins into your main container.

**Recommendation:** Grab your recycling container every time you take out the trash. It's one small habit that makes a big difference.

### A Second Life Starts With You

Every time you recycle, you're not just tossing something away—you might be giving that item a second life. That bottle? It could become sneakers, a backpack, a purse, jeans, and more. Discover the transformations you help inspire at [wm.com/stories](http://wm.com/stories).
